THE TIMES.

A. H. CLEMENT EDITOR

WEDNESDAY, JUNE 27, 1906.

Senator White, of Maryland presiding over the Senate and Senator Morgan of Alabama addressing the Senate ought to make Dr. Osler ashamed of himself.

The President is running rough shod over Congress. Well he won his spurs as "Rough Rider" and is simply using them with effect.

If Secretary Taft ever occupies the presidential chair at least one piece of new furniture will have to be added to the White House collection.

Mr. Bryan has seen the "earth" and the question is whether he still "wants" or not? Did ever such success succeed successive defeats?

Upon what meat hath our railway authorities been feeding that they have grown great enough to defy law? Virginia should enforce that two-cent rate if it "take all summer."

Richmond and Petersburg are enforcing the vagrant law. Let all cities, towns and communities of the Commonwealth do likewise and maybe loafers will be converted into laborers.

We very much doubt that the young men who win diplomas in our law and medical schools should be subjected to the labor and expense of other examinations before being allowed to practice their professions. If the teachers in our schools are not to be trusted we should "turn the rascals out."

The American workingman ought to be ineffably happy, if it is true that the corporations are all his friends. With the sugar trusts to sweeten his drinks, the tobacco trust to soothe his nerves, the beef trust to feed him, the coffin trust to bury him, the insurance trust to look after his orphans, and a thousand miscellaneous trusts making love to him day and night, he is better off than even Tam O'Shanter.

"Kings may be blessed, but Tam was glorious;
O'er all the ills of life victorious."

I.

Judge Hundley Endorsed.

At a meeting of the members of the bar of the Circuit Court of Buckingham County held this day at the Court House, A. S. Hall was elected Chairman, and H. W. Wills Secretary; whereupon F. C. Moon, R. W. Hubbard and H. W. Wills were appointed a committee to draft resolutions expressing the sentiment of the bar at the loss of Judge George J. Hundley as Judge of this court, who reported the following resolutions, which were unanimously adopted.

First— Be it resolved that whereas by a rearrangement of the Judicial Circuits this County has lost the services of our esteemed Judge, George J. Hundley, who, at the close of a long and gallant service in the Confederate Army, began his business life among us, remaining with us for many years, soon attaining a high position in his chosen profession of the law, and who as a lawyer, citizen and able Judge endeared himself to the bar and people, and we express our deep regret at losing the services of a wise, able and fearless Judge, who impartially dispensed justice.

Second— Be it resolved that a copy of these resolutions be spread upon the records of this Court, and copies be sent to the Times Dispatch and other papers, with the request that the same be published.

A. S. Hall, Chairman
H. W. Wills, Secretary.

future of "Our Congo Mission."

The present population of the earth is about 1,500,000,000 persons, of whom about ⅓ or 500,000,000, including the Jews, are subjected to Christian influences, and are the only civilized and enlightened of all the people of the world. It is thus an established fact that the advent and growth of Christianity leads and marks the material intellectual and moral development of the human race, and best conserves the happiness of man.

Notwithstanding it's beneficence, christianity is yet being violently and fanatically opposed by false religionists, notably the Mohammedans, who number more than 200,000,000 and are still actively proselyting among the natives of Central Africa. This opposition is felt in the work of "Our Congo Mission," in aid of which these exercises are held; and now as you have the right to know that your money contributed to this work is rightly and practically expended, it is proper to make a brief statement about it. This Mission was established by the Presbyterian church in 1900, at the native village Luebo, in central Africa, slightly south of the equator, and about 1300 miles inland from the western or Atlantic coast. The territory occupied belongs to what is known as the "Congo Free State," is large and populous, and is ruled or more correctly speaking, MISRULED by the chiefs or headmen of the numerous tribes of natives who compose the population. In the general partition and division of Africa between the several powers of Europe, this particular slice was allotted to Cing Leopold of Germany, who accordingly claims a military "protectorate" over the country. This however is chiefly devoted to monopolizing the trade resources of the land, exacting revenue from the natives, and keeping out others who would like to do likewise. Some good has been done however by the suppression of the slave trade, reducing strife between the native tribes, and by encouraging and protecting Missionary work.

Luebo, our Missionary Station, is located on the Kassai, a branch of the great Congo river which flows into the Atlantic ocean, and being navigable for strong steam-boats is the chief route of travel to the interior. The mission buildings are a residence, store-house, school and chapel, and a hospital for the treatment of the sick and injured who flock from far and near. The present working force of this station consists of three missionaries with thirteen selected natives who are being educated and trained in the work with the view of building up a native ministry, familiar with the different languages or dialects of the several tribes, which shall ultimately christianize the land.

The work being done is systematic and practical, adapted to the necessities and miserable condition of a half starved brutalized race.

The traditional Missionary who "with neither scrip nor staff" goes forth to simply preach the Gospel relying for support upon the hospitality of his hearers, has no place in Darkest Africa.

There, we must first feed the hungry, heal the sick, win confidence and show him that our religion is good, before we can hope to christianize the benighted native and teach him to live a better life. This in practice was the example of Christ in his mission and work, and is the practical plan of "Our Congo Mission." It costs money to do this work, a great deal of it!—but the work must be done, and it's our duty to help supply the means.

As all supplies for the Mission must be imported, and all travel is confined to the river routes, it is necessary that the Station should own and operate it's own river steam-boat. Such a want was supplied by the "Samuel N. Lapsley," a boat which was built for this work by the contributions of Southern children. Unfortunately this boat was wrecked in the dangerous Congo river, but now a better boat, a NEW "Samuel N. Lapsley" has been built in Scotland and shipped to the Congo river at a cost of $38000.

This day, "Children's Day" in all the Sabbath Schools of our Southern land, is dedicated to the work of raising money for the operation of this new boat, to be known as "The Lapsley Support Fund." It is the privilege and duty of us men to help them, and let leave the women and children to do all the work. Women and children are better than men! It is because they are more sympathetic and less selfish. Where do we find the brightest examples of unselfish devotion? It has been truly said, "They are found in the daily relations of daughter, sister, wife, mother." Yes women are more self-sacrificing than men, and they have always been so. As a beautiful illustration in the past, it is told, that when Cousid, who founded the German Empire, laid seige to the walled city of Wittenburg, he was so angered at it's resistance that he declared he would put all of its defenders to death, but in accordance with the chivalric spirit of the age, he gave permission that all the women might safely depart the city with such of her most valued belongings as she herself could bear away. Imagine his astonishment and the admiration of his army when a procession of devoted women filed out of the city each bearing on her frail shoulder the loved form of father, brother, husband or sweet-heart!

Love is the life of a woman, and of a child, and God Himself is Love. Women and children are the strength and the hope of the moral forces to-day, and if we men ever get to Heaven it will be by their help. Jesus loved them when on earth, and "of such is the Kingdom of Heaven."

Let the call of duty be as loud to us as it is to these dear children. Let the master's work be done! And may all present here to-day be reunited in that happy land where it is always "Children's Day."

Cured of Brights Disease.

George A. Sherman, Lisbon Red Mills, Lawrence Co., N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended, but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure."

Although Mr. Smith was physically unable to preach, he made three attempts to conclude a most interesting sermon, but was compelled, from exhaustion to stop. Rev.
